EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS   Remote
Full Stack Web Development Student   February 2020 – Present

Mastered intermediate and advanced topics in full-stack development (including Rails, Git, and DS&A challenges) while building multiple full-stack projects both independently and via pair-programming

Metlife (Through TI Partner)   Santiago, Chile
TI Consultant - .NET Developer   June 2018 – September 2018
- Built a Windows service application using C#, that automatized the loading of insurance policies into their system, reducing significantly the hours needed to process the policies
- Created documentation for the Windows service application that helped the QA team and management successfully install it in their servers and understand how the service works

TI Partner   Santiago, Chile
TI Consultant - .NET Developer   September 2018 – January 2019
- Co-developed a website using C#, Kendo Grids, and SQL Server, for insurance companies that calculated and displayed all the information regarding agents commissions, centralizing all the information in one website for easy access and updating their manual way of calculating commissions

Colmena Seguros (Through TI Partner)   Santiago, Chile
TI Consultant   January 2019 – March 2019
- Documented step-by-step critical company processes and centralized SQL queries information needed for all the end-month and end-year calculations, making it easy for any new or current employees to perform them
- Acted successfully as the link between the TI and sales departments, keeping a good flow of communication between them and making sure all the projects on the pipeline kept their schedule while undergoing major personnel restructure

Comercial Amaru   Antofagasta - Iquique - San Pedro de Atacama, Chile - Remote
Administrator   August 2011 – March 2020
- De-escalated communication issues consistent and successfully, between management and staff, maintaining a good workflow in the company

EDUCATION

MICROVERSE   February 2020 – Current
Remote Full Stack Web Development Program, Full Time
- Spent 700+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux

- Developed skills in remote pair-programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers

UNIVERSIDAD TECNOLÓGICA DE CHILE, INACAP
IT Engineering   2011 – Incomplete

ESCUELA INFORMÁTICA
C# Course   April 2018 – August 2018
